

Expediting orders.

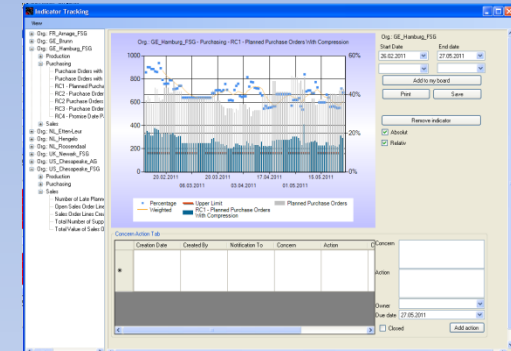

Discussion Tracking

Stay Online on discussions around the whole site for order fulfillment.

Indicator Tracking

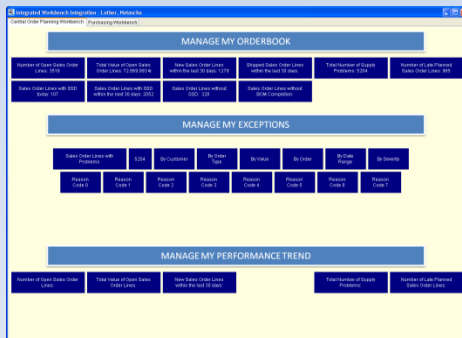

Daily snapshots and automated chart rendering.

Integrated Workflow

Cockpit

Process for the books.

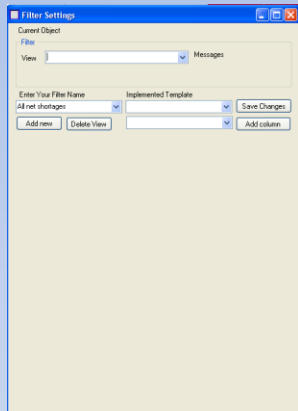

Autobahn

Expediting sales orders, purchase order and wip discrete jobs across the factory and along their dependencies.

Key features:

- Sales order drilldown and reverse lookup
- Lean deployment and development technology – click once manifest
- Comments and assignments attached to the orders
- Advanced filter technology – filter once and save your time forever
- Standardized problem description on net shortages
- Cross view along different sites
- One click on fields for lookup philosophy
- Advanced right click menus for context-specific tasks
- One form gives all information across the whole ERP system
- One search finds it all

The screenshot shows a software window with a blue title bar. Below the title bar is a search area with a text input field, a 'Find' button, and a 'Next' button. To the right of these buttons is a dropdown menu currently displaying 'US_Chesapeake_FSG'. The dropdown menu is open, showing a list of four options: 'FR_Arnage_FSG', 'GE_Hamburg_FSG', 'UK_Newark_FSG', and 'US_Chesapeake_FSG'. Below the search area is a table with several columns. The visible columns are 'Req', 'Qty', 'Ship'd', 'OP1', 'OP2', 'OP3', 'OP4', and 'Planned'. The 'Planned' column is partially visible and truncated.

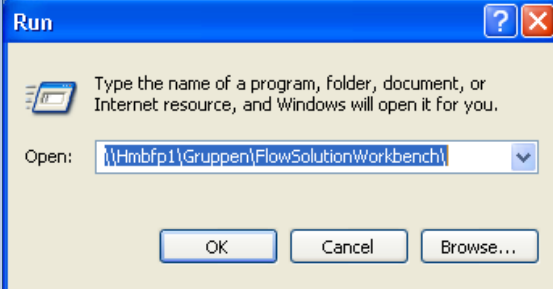

Req	Qty	Ship'd	OP1	OP2	OP3	OP4	Planned
-----	-----	--------	-----	-----	-----	-----	---------

Different organizations are available from the tool.

Installation of the tool.

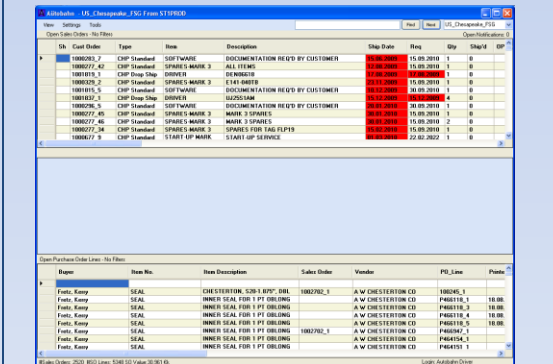

Open the folder

Start > Run

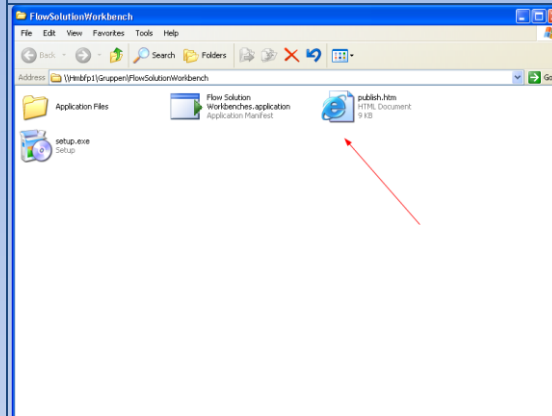

Start the tool

Start > All Programs >
Flowserve

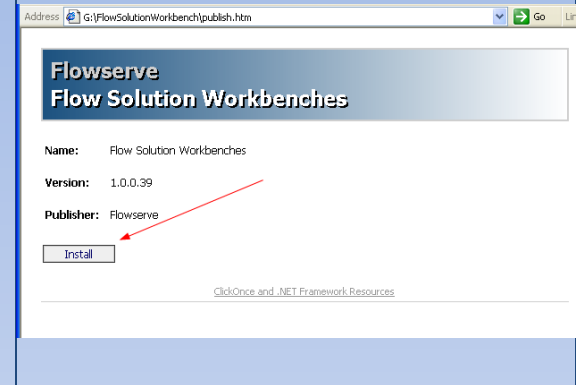

Start Installation

Double Click publish.htm

Start Installation

Click install

On Windows XP machines the install process may download and install the .NET Framework 3.5.

Path: \\Hmbfp1\Gruppen\FlowSolutionWorkbench

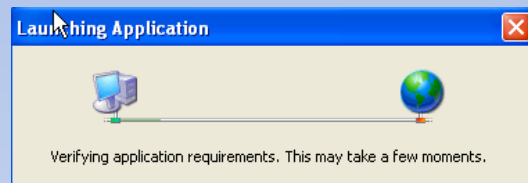

Updates

The application looks for new updates to install after every start and will ask to install these.

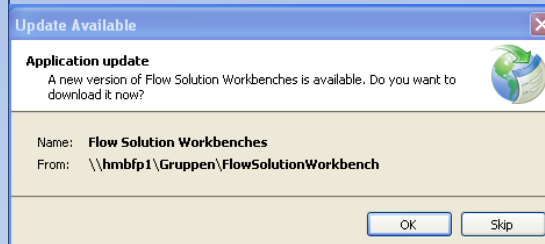

Start the application

Start > All Programs > Flowserve
> Flow Solution Workbench

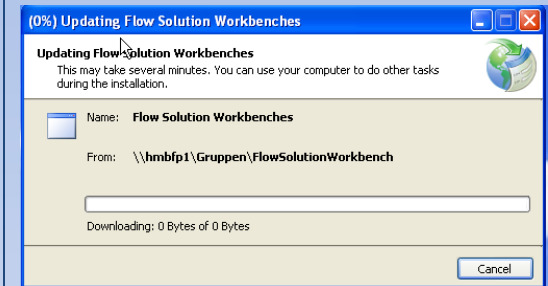

Install update

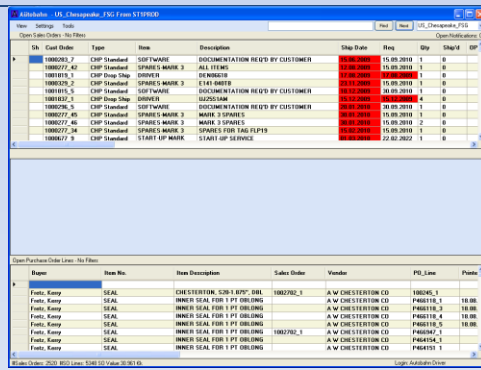

Click OK

Wait for the update

The tool starts

Left click
on rows
enables jump
and find
in Autobahn.
